Loh Jia Le John

M: +65 81821241 | E: johnloh1010@gmail.com | LI: https://www.linkedin.com/in/john-loh-892a8318b/

EDUCATION

Singapore University of Technology and Design **Sep 2023 to Apr 2027**
- B.Sc. Design & Artificial Intelligence (Minor in Computer Science)
- Global Exchange Programme, Dankook University (Mobile Systems Engineering)

Nanyang Polytechnic
- Diploma in Business Informatics, Specialisation in Business Analytics & Entrepreneurship **Apr 2018 to Mar 2021**
- Edusave Certificate of Academic Achievement

WORK EXPERIENCE

Software Engineer Intern – Summer Internship **Jun 2026 to Sep 2026**
22 Media Pte Ltd – Mobile App Tech Team
- Built and iterated interactive product experiences from prototype through implementation using Laravel/Livewire and React Native.
- Translated Figma designs and product requirements into reusable mobile UI components and user flows.
- Contributed to an existing React Native production codebase through GitHub PRs, code review, debugging, and iterative refinement.
- Used AI-assisted development workflows with Claude Code and Codex to accelerate prototyping, implementation, debugging, and code review while adhering to project engineering standards.

Project Management Intern – Winter Internship **Sep 2025 to Dec 2025**
Hegen Pte Ltd - Strategy and Transformation (ST) Department
- Executed strategic initiatives at the intersection of digital transformation and operational optimisation.
- Initiated and delivered an AI-powered internal translation tool improving secure document workflows.
- Supported enterprise-level website redesign and LMS implementation to enhance digital capabilities.
- Produced operational analytics reports to inform management decision-making.

Advanced Design Mentor – Project-Based Role **May 2025 to Aug 2025**
Singapore University of Technology and Design – STEAMunity Programme
- Mentored and developed student innovators through a 4-month structured innovation programme.
- Guided teams from initial problem exploration to functional prototype development.
- Supported industry-sponsored challenge (AWS) through stakeholder alignment and iterative feedback.
- Enabled students to achieve Advanced Design Innovator certification through structured coaching and design facilitation.

Full Stack Engineer Intern – Winter Internship **Sep 2020 to Feb 2021**
RSM Stone Forest - Management Information Systems (MIS) Department
- Independently designed and implemented a full-stack onboarding platform prototype, reducing manual onboarding inefficiencies.
- Produced technical and functional documentation to support deployment and future scalability.
- Partnered with audit professionals to automate billing report generation, enhancing accuracy and compliance.
- Acted as liaison between technical and business teams to define and deliver system requirements

INDUSTRY COLLABORATIVE PROJECTS

Technical Lead – GrantPal: AI Grant Management Platform **May 2025 to Aug 2025**
Being Bridges Pte Ltd
- Led end-to-end development of GrantPal, an AI-powered grant management platform, from concept through scalable web deployment.
- Built AI modules for grant eligibility analysis and automated drafting using OpenAI APIs, cutting manual review time.
- Automated deadline tracking via Google Calendar API integration, eliminating manual scheduling follow-up.

ADDITIONAL INFORMATION
- **Leadership Roles:** Welfare Director, DAI Programme; Outreach Director, SUTD Mountaineering Club; Hostel Warden, SUTD; Church Youth Leader
- Fluent in English and Mandarin (spoken & written)
- Achieved Grade 8 certification in Piano
